

My fellow NSREA members,

The Mission Statement for the National Society of Real Estate Appraisers is

"To provide exceptional services for its members in the core areas of Education, Training/Mentoring, communication, Re-certification and Business Development."

In light of our mission statement we will coalesce all of our ideas and energy to achieve our organizational mission. As we move forward with present and future activities, we should focus our efforts on making our mission statement a reality statement. From our newest members to our oldest members; and, from the Local Chapters to the Board of Directors, as members of The National Society of Real Estate Appraisers, we must stand on the shoulders of our great past presidents and mentors to reach greater heights in education, training, mentoring, communication, re-certification and business development.

I am excited about our National Education Initiatives for Pre-license Education and Continuing Education, our Instructor Certification and Recertification Program, our Local Chapter Building Initiatives, our revitalized Designation Program, our Annual Recertification Conferences and our Appraisal Foundation Reinstatement Initiative. As we reveal these plans over the next few months, I believe that our leadership and membership will respond with new energy and focus.

I look forward to working with you as we make our Mission Statement a Reality Statement.

Humbly Submitted,

Sir Lawrence Netterville
Executive Vice President
National Society of Real Estate Appraisers
